

What's the Difference?

Chair Scale v's Ramp/Chair Scale v's Hoist Scale

"What type of scale do you recommend?" is a common question to the team here at Unicare Health. The table below was prepared to compare three popular scales, and the for which application are they best suited.

Our entire range of healthcare scales including neonatal scales and physician scales are available at:

www.unicarehealth.com.au/shop/patient-care/patient-handling/scales/
